Summary

I am a promising and resourceful **Front-end developer** with 2+ years of experience designing and developing websites. I possess the ability to adapt and learn fast with a deep curiosity about technology and a genuine interest in building polished software products. I'm highly effective working alone, but also very effective when collaborating with designers, back end developers and other team members. I have a strong habit of learning through real projects and practical problem solving. I'm looking to join a team where I can contribute to meaningful products and ideas as I continue to grow as a developer.

I speak English, Igbo, with basic German and I am open to remote work and relocation

Stack

Languages & Frameworks: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.

Platforms: Git/GitHub, Vercel, Netlify, Vite, VS Code and so forth

Experience

Self-Employed

INDEPENDENT FRONTEND DEVELOPER

Remote
2024 - Present

- Designed and developed responsive web applications with a focus on performance, accessibility, and usability across desktop and mobile devices.
- Built custom business websites and landing pages, translating client branding requirements into responsive and user-friendly experiences.
- Managed 100% of the development lifecycle for personal and client projects, from planning and version control with Git/GitHub to deployment and production updates.
- Built interactive dashboards and multi-page applications with a strong focus on UX and performance, achieving improvements in page performance through optimization of assets, components, and application structure.

Projects

Freelance Client Management Dashboard

<https://fc-management-dashboard.vercel.app/>

- Developed a multi-page SaaS dashboard tailored for freelancers to manage client relationships, projects, invoices, and earnings.
- Implemented key features including automated invoice tracking, project milestone management, and dynamic data visualization for earnings.

Job Application Tracker

<https://job-application-journal.vercel.app/>

- Designed and Developed a Job application tracker and management system
- Designed an intuitive, responsive user interface to track job applications through the entire hiring lifecycle.

Arti Technologies Marketplace

<https://arti-technologies-inc.vercel.app/>

- Built a regional discovery platform connecting consumers with local service providers, featuring a multi-page architecture.
- Focused on responsive design principles to ensure seamless navigation and usability across all device types.

Education & Certifications

University of the People

BACHELOR OF SCIENCE IN COMPUTER SCIENCE - FULL SCHOLARSHIP

- Studying at University of the People | Bachelor of Science in Computer Science
- Awarded a Full Scholarship for academic excellence and commitment to the program.
- Focusing on core Computer Science principles, data structures, and software engineering methodologies.

freeCodeCamp

DEVELOPER CERTIFICATIONS (1,000+ HOURS OF FOCUSED STUDY & PRACTICE)

- JavaScript Algorithms and Data Structures Certification
- Responsive Web Design Certification
- Front End Development Libraries Certification

Additional Skills & Competencies

Methodologies: Responsive Design, SaaS Development, Performance Optimization, Frontend Architecture

Professional Strengths: Problem Solving, Adaptability, Fast Learning, Team Collaboration, Communication, Critical Thinking, Attention to Detail, Self Management, Curiosity & Continuous Learning
